Heavy Crude Oil Outlook 2011

I: Executive Summary

II: Introduction and Global Context

II.1 Resources
II.2 Impact on Refining
III.3 Heavy Oil Crude Pricing and Outlook

III: North America

III.1 Canada
III.1.1 Companies and Projects
III.1.2 Costs and Economics
III.1.3 Environmental and Energy Security
III.1.4 Outlook for Short Term and Medium Term Projects
III.1.5 Outlook for Long Term Projects

III.2 United States
III.2.1 Companies and Projects
III.2.2 Costs and Economics
III.2.3 Environmental and Other Aspects
III.2.4 Outlook for Short and Medium Term Projects
III.2.5 Outlook for Long Term Projects

III.3 Mexico
III.3.1 Outlook for Existing and Planned HCO
III.3.2 Long Term Prospects

III.4 Summary Outlook, Infrastructure and Disposition
III.4.1 Scenarios for Disposition of Canadian Oil Sands Production
III.4.2 US Crude Import Outlook
III.4.3 Disposition scenarios

IV: South and Central America

IV.1 Venezuela
IV.1.1 Orinoco existing projects
IV.1.2 Orinoco Planned Future Projects medium term
II.1.3 Plans for Disposition of Orinoco crude and/or SCO and Risks
IV.1.4 Conventional HCO
IV.1.5 HCO Outlook

IV.2 Brazil
   IV.2.1 Campos Basin Projects
   IV.2.2 Other HCO
   IV.2.3 Costs and Economics
   IV.2.4 Outlooks

IV.3 Other Latin America
   IV.3.1 Ecuador, Colombia and Peru
   IV.3.2 Other

IV.4 Summary outlook, infrastructure and disposition

V: Middle East

V.1 Resources, Companies and Projects
   V.1.1 Oman
   V.1.2 Iraq
   V.1.3 Kuwait, PNZ, Saudi Arabia
   V.1.4 Other

V.2 Unique challenges for HCO

V.3 Medium and Long Term outlooks
   V.3.1 Key Drivers for new HCO production in Kuwait, Iran and Saudi Arabia
   V.3.2 Outlook for additional HCO in the Middle East

V.4 Disposition

VI: Asia Pacific

VI.1 China
   VI.1.1 Heavy oil resources
   VI.1.2 Outlook

VI.2 Other Asia Pacific

VII: Africa

VII.1 Angola
VII.2 Madagascar
VII.3 Chad and Cameroon
VII.4 Long Term African HCO Prospects
VII.5 Outlook and Disposition

VIII: Europe, Russia and Central Asia
VIII.1 North Sea
VIII.2 Central and Eastern Europe
VIII.3 Russia
VIII.4 Central Asia
VIII.5 Outlook and Disposition

IX: Summary Long Term HCO

IX.1: Potential Resources

IX.1.1 Canada, US, Mexico (US tar sands, Mexico X-HO, Canada Saskatchewan and LT in Alberta)
IX.1.2 Venezuela, Brazil, Other
IX.1.3 Middle East (Iran, Saudi Arabia, Kuwait)
IX.1.3 African Prospects and potential for development (Egypt, Congo, Nigeria, etc.)
IX.1.4 Europe, Russia and Central Asia

X: New and Emerging Technologies

XI: Global Implications

XI.1 Global Outlook for Short and Medium Term Projects
VI.2 Potential additions to HCO in the Long Term
VI.2 Alternatives and Implications

Annex: Regional HCO Outlook Tables
